

OBJECTIVE	To obtain a coop or internship position in the field of Computer Engineering for the Summer of 2017.	
WORK EXPERIENCE	<b>Critical Link LLC</b> - Syracuse, NY	May 2016 - Present
	Engineering Intern	<a href="http://criticallink.com/">http://criticallink.com/</a>
	Currently aiding in the research for application of Hall Effect sensors for proximity sensing. Research includes possible concerns of the application, and design, implementation, and analysis of test circuits.	
	Aiding in the development of the Android software for a bacteria-scanning device. Android Studio is used to develop the application in Java. Main focus is on the user interface of the application.	
	<b>Parsons Government Services</b> - Centreville, VA	Summer 2015
	Personal Computer Support Tech Intern	<a href="http://parsons.com/">http://parsons.com/</a>
	Worked on Java back end development in an Eclipse environment with a focus on fixing existing issues in a networking security application. Collaborated on the documentation of the installation of a service for the project on a clean virtual machine running Ubuntu. Tested and verified different components of the application and submitted defect tickets through JIRA. Collaborated in code reviews using Review Board.	
	<b>Rochester Institute of Technology</b> - Rochester, NY	Fall 2014
	Student Lab Instructor	<a href="http://rit.edu/">http://rit.edu/</a>
	Lab instructor, individual tutor, and grader of assignments for students enrolled in the introductory computer science course sequence.	
	<b>Rochester Institute of Technology</b> - Rochester, NY	Summer 2014
	Student Developer	<a href="http://rit.edu/">http://rit.edu/</a>
	Worked on the development of a keyboard and screen reader compatible “drag and drop” programming environment. Aided in the development of Inclusive Exploring Computer Science curriculum for visually impaired students.	
EDUCATION	<b>Rochester Institute of Technology</b> - Rochester, NY	August 2013 - Present
	Major: Computer Engineering, Minor: Mathematics	GPA: 3.337
	Graduation: December 2017	
TECHNICAL SKILLS & CERTIFICATIONS	<b>Software</b> VHDL, L <sup>A</sup> T <sub>E</sub> X, Java, C, ARM and MIPS Assembly, Python	
	<b>Hardware</b> Soldering, Power Supplies, Multimeters, Oscilloscopes	
	<b>Tools</b> Git, Xilinx, ModelSim, Android Studio, PSpice, Altera Quartus II	
	<b>Certifications</b> Electrostatic Discharge (ESD) Certification, 2016	
PERSONAL PROJECTS	<a href="http://github.com/VictoriaWeaver/">http://github.com/VictoriaWeaver/</a>	
	<b>MIPS-VHDL:</b> Implemented a portion of the MIPS assembly instruction set architecture in VHDL.	
	<b>Infrared Proximity Sensor:</b> Employed the use of infrared LEDs for proximity sensing in conjunction with seven segment displays and a buzzer for visual and auditory feedback.	
	<b>LED Table:</b> Constructed a programmable matrix of LEDs in a custom wooden case with a diffused Plexiglas cover to make various patterns and animations.	
	<b>Encryption Algorithm Speeds:</b> Implemented RSA and a symmetric key algorithm in Java to compare the execution time of the algorithms.	
INTERESTS & ACTIVITIES	<b>WE@RIT Open House Leadership Team:</b> Part of a team of five of female Computer Engineering students, responsibilities include creating and implementing several activities for an Open House event targeting young women (grades 6-9) to gain hands on experience in engineering.	
	<b>Computer Science House (CSH) Member:</b> A Special Interest House at RIT that provides a unique living and learning environment with access to facilities and other resources to promote hands-on learning while still maintaining a social atmosphere.	
	<b>CSH Director of Evaluations (Spring 2016):</b> Responsible for membership evaluations, requirements, and recruitment as well as serving as a liaison between CSH and RIT Residence Life.
